

## Product Data Sheet

**Trypsin EDTA (0.5 %) in DPBS (10x)**

**Product No.** GB-TEDTA-100A

**Packing.** 100 ml

**Storage.** - 20°C

Test	Specification
Appearance (Turbidity)	Clear
Appearance (Form)	Solution
pH	7.0 - 7.6
Osmolality	252 - 308 mOs/kg
Sterility by USP guidelines	Pass
Detachment Time Cell 1	< 10 min
Viability % viable/4 day culture for cell line 1	> 90 %
Detachment Time Cell 2	< 10 min
Viability % viable/4 day culture for cell line 2	> 90 %
Trypsin Activity (BAEE U/ml)	500 - 1200
Mycoplasma Test by Barile on Trypsin raw material Porcine Parvovirus	None Detected
Porcine Parvovirus by 9CFR on Trypsin raw material	Negative
